

FC BASICOM

Electronic Universal controllers for fan coils

Description

FC BASICOM is a family of universal thermostats designed for use in a network with **Televis or Modbus protocol (using an external converter module) to implement a centralized control system in medium/small systems such as hotels and offices.**

FC BASICOM controls valves with on-off actuators, any electric heaters and the three fan speeds.

Once the unit has been set correctly, **FC BASICOM** can be used to control the following fan coil units:

- 2 pipes;
- 2 pipes with electric heaters;
- 4 pipes.

Typical applications are:

- Household,
- Residential,
- Small commercial areas (offices, hospitals, hotels) **for centralized control of small systems.**

Installations:

- independent wall thermostat;
 - ceiling-mounted installations;
 - floor-mounted fan coil installations;
- in all cases, automatic control of the three fan speeds based on the offset between the ambient temperature and the set point is possible.

Main characteristics:

- One range that is now even more comprehensive with a simple modern design,
- One controller for a variety of system requirements;
- Easy to use and install,
- Less risk of damaging electronics,
- Maximum focus on comfort and energy savings,
- Functions:
 - Hot Start and Too Cool,
 - Post Ventilation and Periodic Ventilation,
- Economy input or Window Contact;
- Automatic fan speed;
- Low noise level with solid state technology (TRIAC);
- Range control using special pegs;
- Remote air probe (optional accessory);
- Vertically installed for easier on board-installation;
- Operating and probe alarm LEDs;
- Attention to specific requirements:
 - Manufacturers: adaptable to specific requirements
 - Distributors: universality reduces stock-holding requirements;
 - Installers: easy to install and less risk of damaging electronics;
 - End-user: simple and intuitive to give maximum comfort and accuracy with a focus on energy saving.

Models and Connectivity

Other models are available covering a wide range of applications and installations.

	FC U320/S - FC U120/S Universal model
	FC U32E/S - FC U12E/S Universal model with economy input for reduced set
	FC U32W/S - FC U120W/S Universal model with window contact for energy saving
	BUSAdapter350 TTL - RS-485 serial interface on DIN rail for connecting FCBASICOM and an RS-485 network designed for connection to Televis or ModBUS supervision system.
	PCInterface1100 RS-232/RS-485 serial interface for connecting a PC and a series of instruments in an RS-485 network.

Characteristics common to all models

Functions

Automatic change-over

Periodic Ventilation

Control of set point

Post Ventilation

Automatic speeds

Regulation of valves/fans

Number Model	Code FC	Description
		Fan Coil BASICOM
1st	U	Universal model, fan coil system with 2 or 4 pipes selectable (with dip-switch)
2nd	3	• slider 1 (mode) : Off / Heating / Cooling / Automatic
	1	• slider 2 (mode) : ON/OFF
3rd	2	Heating Mode (electric heaters) present selectable (with dip-Switch)
4th	0	Digital input not present
	E	Economy input present
	W	Window Contact input present
5th	/S	Model with remote water and air probe inputs

User interface

Technical Data

- Power supply: 230V~ 50/60Hz
- Electrical data for 230V output: 0.5 A max for valve outputs and 1 A max for fan outputs
- Insulation class: II
- Protection class: IP30
- Analogue inputs: 1 (+1) NTC probes
 - remote air probe (optional); cover 4.7 X 27 mm; plastic resin tube; length of cable: 1.5 m
 - remote water probe (optional); cover 6 X 23 mm; plastic resin tube; length of cable: 2 m
- Serial: TTL for connection (via BusAdapter350*) to Televis/modBUS network
- ***NOTE: Only use BusAdapter350 for connection in RS-485 network**
- Unit dimensions: 80x120x40 mm
- Mounting: wall-mounted, device-mounted (floor or ceiling)
- Colour of casing:
 - Front: white;
 - Base unit: white.
- Connections: screw terminal block for wires with 2.5 mm maximum diameter²
- Ambient temp.: 0...55 °C
- Storage temp.: -20...85 °C
- Compliance: CE LV-EMC compliant

Dip Switch Table

DIP NUMBER	Description	ON	OFF
1	Type of installation	ceiling-mounted	floor-mounted
2	Fan	continuous (1)	on request (2)
3	Thermostat control	on valve	on fan
4 and 5	Type of unit		
	• 2 pipes without electric heaters	-	4,5
	• 2 pipes with integrated electric heaters	4,5	-
	• 2 pipes with regulated electric heaters	5	4
	• 4 pipes	4	5

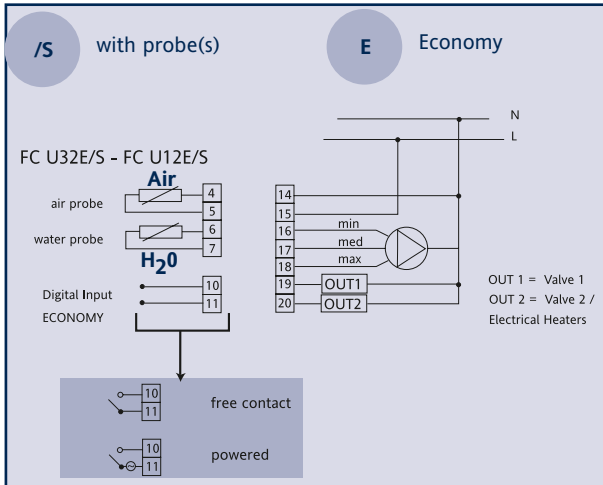

- (1) no Hot Start and Too Cool.
 (2) on request in heating mode;
 continuous in cooling mode.
